

Navajo leaders encourage equitable distribution of CARES Fund chapter distribution supplies

FOR IMMEDIATE RELEASE: January 31, 2021

WINDOW ROCK, Ariz. — Navajo leaders encourage local Navajo Nation chapters to practice an equitable distribution of CARES (Coronavirus Aid, Relief, and Economic Security) Fund chapter distribution supplies for all Navajo citizens.

The supplies were funded through federal CARES Act Coronavirus Relief Funds distributed to tribal governments through the US Treasury. The Navajo Nation then made portions of those funds available for use by local chapter governments through Resolution No. CS-73-20.

“In the allocation of CARES Funds for chapters to utilize, the Council made funding available through the Navajo Nation’s 50-50 funding formula. That means half of the total allocation for all chapters was split evenly among 110 chapters. The other half was based on population data,” said Speaker Seth Damon.

That action should not be interpreted to mean supplies are only to be distributed to registered voters. No requirement exists in CS-73-20 that supplies only be distributed to registered chapter voters, nor that anyone needs to have voted in the last election to receive supplies from the chapter.

Supplies received through the Navajo Nation Division of Community Development (DCD), which was charged under the Navajo Nation CARES Fund Chapter Distribution Expenditure Plan to administer the program, are intended to be utilized in direct response to the pandemic.

In a memorandum to all 110 chapter (attached) dated Jan 29, the DCD stated: “With the funds, essential items were procured to benefit all members of the Navajo Nation, regardless of Chapter affiliation, membership, or voter registration.”
