</tbody>
</table>

*Schools serving these communities need to implement layers of mitigation to meet the high level of COVID-19 community transmission.

All residents should take precautions to protect their health from the spread of COVID-19. Individuals with the following conditions are at higher risk of being affected from COVID-19.

People at Increased Risk for Severe Illness
- Older Adults
- Cancer
- Chronic kidney disease
- Chronic obstructive pulmonary disease
- Heart conditions
- Immunocompromised state
- Obesity and severe obesity
- Pregnancy
- Sickle cell disease
- Smoking
- Type 2 diabetes mellitus

Might be at Increased Risk for Severe Illness
- Asthma
- Cerebrovascular disease
- Cystic fibrosis
- Hypertension or high blood pressure
- Immunocompromised state
- Neurologic conditions, such as dementia
- Liver disease
- Overweight
- Pulmonary fibrosis
- Thalassemia
- Type 1 diabetes mellitus
All residents should practice health and safety measures:

- Get vaccinated.
- Wear a mask in the public.
- Avoid close contact with people who are sick.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol.
- Clean and disinfect frequently touched surfaces daily.
- Avoid touching your face, nose, and eyes with unwashed hands.
- Clean and disinfect your vehicle, home, workspace and other common areas on a regular basis.
- Social distance - keep 6 feet between yourself and others.
- Limit gatherings with individuals outside your immediate household.
