“Community immunity is the goal and it will take more of our Navajo people getting vaccinated to reach that goal. We have well over half of our adult population fully vaccinated, but we want to get at least 75-percent of the eligible population fully vaccinated as soon as possible. Please remember that even after being fully vaccinated, you can still get COVID-19 so it’s very important that everyone continue to take precautions such as wearing masks in public. As we’ve said before, the safest place to be is at home here on the Navajo Nation. Keep your guard up and get vaccinated if you haven’t already,” said Navajo Nation President Jonathan Nez.

Health care facilities across the Navajo Nation continue to administer COVID-19 vaccines during drive-thru events or by appointment. If you would like to receive the vaccine, please contact your health care provider for more information for your Service Unit.

The Nez-Lizer Administration will host an online town hall on Thursday, June 3rd at 10:00 a.m. on the Nez-Lizer Facebook page and YouTube channel to provide more COVID-19 updates.

“We are hopeful that we will not have a large surge in new COVID-19 cases as a result of the Memorial Day weekend, but we may see some new cases in the coming days. Please do not be discouraged if our numbers increase. Keep pushing back on the virus by taking precautions and getting the vaccine. Be safe and keep praying for our frontline workers and our communities,” said Vice President Myron Lizer.
