FOR IMMEDIATE RELEASE

October 11, 2021

**11 new cases, 32,667 recoveries, and no recent deaths related
to COVID-19, 33 communities identified with uncontrolled spread**

WINDOW ROCK, Ariz. – On Monday, the Navajo Department of Health, in coordination with the Navajo Epidemiology Center and the Navajo Area Indian Health Service, reported 11 new COVID-19 cases for the Navajo Nation and no recent deaths. The total number of deaths remains 1,456. The report indicates that 32,667 individuals have recovered from COVID-19. 343,869 COVID-19 tests have been administered. The overall total number of positive COVID-19 cases is now 34,458.

Navajo Nation COVID-19 positive cases by Service Unit:

- Chinle Service Unit: 6,226
- Crownpoint Service Unit: 3,357
- Ft. Defiance Service Unit: 4,073
- Gallup Service Unit: 5,545

- Kayenta Service Unit: 3,005
 - Shiprock Service Unit: 5,863
 - Tuba City Service Unit: 4,224
 - Winslow Service Unit: 2,146
- * 19 residences with COVID-19 positive cases are not specific enough to place them accurately in a Service Unit.

On Monday, the state of Arizona reported 1,760 new cases. Utah and New Mexico will report weekend case numbers on Tuesday. Based on cases from Sept. 24 to Oct. 7, 2021, the Navajo Department of Health issued a Health Advisory Notice for the following 33 communities due to uncontrolled spread of COVID-19:

Baca/Prewitt	Houck	Manuelito	Shiprock	Tonalea
Birdsprings	Indian Wells	Nageezi	St. Michaels	Tsayatoh
Cameron	Iyanbito	Pinon	Tecnospos	Tselani/Cottonwood
Chinle	Kaibeto	Red Valley	Teesto	Tuba City
Churchrock	Kayenta	Rock Springs	Thoreau	Two Grey Hills
Coyote Canyon	Leupp	Sanostee	Tohatchi	Upper Fruitland
Ganado	Lupton	Sheepsprings		

“This week, we see a slight decrease from 35 to 33 communities identified as having uncontrolled spread of COVID-19. Please continue to wear a mask in public, avoid large crowds, and most importantly, get vaccinated. The COVID-19 vaccines are safe and effective. If you have a loved one who has not received the vaccine, please encourage them to get fully vaccinated as soon as possible. The vaccines help reduce severe symptoms, hospitalization, and risks of death if you contract the virus. We need everyone’s help to educate people about the benefits of COVID-19 vaccines,” said Navajo Nation President Jonathan Nez.

Health care facilities across the Navajo Nation continue to administer COVID-19 vaccines. If you would like to receive one of the COVID-19 vaccines, please contact your health care provider and schedule an appointment.

"Keep taking precautions to protect yourselves and others from COVID-19. If you feel sick or have symptoms related to COVID-19, please remain home, do your best to isolate yourself, and get tested for COVID-19 as soon as possible. Our health care experts have provided us the guidance and protocols to follow, so please adhere to their advice and continue to pray for our people," said Vice President Myron Lizer.

For more information, including helpful prevention tips, and resources to help stop the spread of COVID-19, visit the Navajo Department of Health's COVID-19 website: <http://www.ndoh.navajo-nsn.gov/COVID-19>. For COVID-19 related questions and information, call (928) 871-7014.

October 11, 2021

Navajo Department of Health Health Advisory Notice (HAN) COVID-19 Community Advisory No. 47 —Safety Precautions

WINDOW ROCK, AZ – The Navajo Health Command Operations Center is issuing uncontrolled spread of COVID-19 advisory for the following communities. The cases reflect dates September 24, 2021 – October 7, 2021. The advisory will be in effect until the risk and cases decline.

The following communities are identified as having uncontrolled spread of COVID-19:

Baca/Prewitt	Houck	Manuelito	Shiprock	Tonalea
Birdsprings	Indian Wells	Nageezi	St. Michaels	Tsayatoh
Cameron	Iyanbito	Pinon	Tecnospos	Tselani/Cottonwood
Chinle	Kaibeto	Red Valley	Teesto	Tuba City
Churchrock	Kayenta	Rock Springs	Thoreau	Two Grey Hills
Coyote Canyon	Leupp	Sanostee	Tohatchi	Upper Fruitland
Ganado	Lupton	Sheepsprings		

****Schools serving these communities need to implement layers of mitigation to meet the high level of COVID-19 community transmission.***

All residents should take precautions to protect their health from the spread of COVID-19. Individuals with the following conditions are at higher risk of being affected from COVID-19.

People at Increased Risk for Severe Illness <ul style="list-style-type: none">• Older Adults• Cancer• Chronic kidney disease• Chronic obstructive pulmonary disease• Heart conditions• Immunocompromised state• Obesity and severe obesity• Pregnancy• Sickle cell disease• Smoking• Type 2 diabetes mellitus	Might be at Increased Risk for Severe Illness <ul style="list-style-type: none">• Asthma• Cerebrovascular disease• Cystic fibrosis• Hypertension or high blood pressure• Immunocompromised state• Neurologic conditions, such as dementia• Liver disease• Overweight• Pulmonary fibrosis• Thalassemia• Type 1 diabetes mellitus
--	--

All residents should practice health and safety measures:

- Get vaccinated.
- Wear a mask in the public.
- Avoid close contact with people who are sick.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol.
- Clean and disinfect frequently touched surfaces daily.

- Avoid touching your face, nose, and eyes with unwashed hands.
- Clean and disinfect your vehicle, home, workspace and other common areas on a regular basis.
- Social distance - keep 6 feet between yourself and others.
- Limit gatherings with individuals outside your immediate household.
